PROJECTS

Open-Source Cookie Consent Management System

The open-source cookie consent management system is a tool that helps websites follow laws and regulations related to cookies and tracking technologies, while also providing users with information about the types of cookies being used. It can help websites avoid fines and legal issues, increase user trust and confidence, and is customizable to fit the needs of the websites)

Role: Fullstack Developer

Technologies: ReactJS, Spring Boot, Mysql

Official website of Thiita Designers & Consultants Pvt.Ltd

created a construction developer website that incorporates user comments functionality. Leveraging React for the frontend, Spring Boot for the backend, and MySQL for the database, I designed a platform where users can share their feedback and engage in meaningful discussions.

Role: Fullstack Developer

Technologies: ReactJS, Spring Boot, Mysql

Portfolio

Portfolio is a web base project that allow to share details about my skills, my projects. It also has a admin page to add new projects and make changers on the web site
